STRUCTURAL FIRE BOOTS

**YOUR
CORPORATE
LADDER
IS HOTTER
THAN MOST.**

A rush job entails running 10-33 in response to an alarm. Getting a good client review means an emotional sob of thanks from the parent of a child you've just rescued. And a successful project might include saving thousands of acres of forest, or countless memories from a home.

Let's face it: the stakes at your job are higher than those of the average American worker.

And because your shift lasts 24 hours (and sometimes beyond), you need footwear to handle everything from fighting a fire to filling out paperwork to cleaning the station. You need footwear that you don't need to worry about.

That's a tall order. Thankfully, we can fill it.

LION-Thorogood has relentlessly focused on craftsmanship, innovation, and comfort, while recognizing the importance of footwear to your livelihood and getting the job done.

STRUCTURAL FIRE BOOTS

KnockDown Elite™ 14" Leather Boot

No matter how many times the alarm sounds during your shift, these black flame-resisting leather upper KnockDown boots go on with ease. Once your foot slides in, the ankle lock system holds you firmly in place until you use the handy heel kick plate to take them off. Our exclusive Vibram® Fire & Ice All-Terrain Sole provides exceptional traction on any surface; including pitched roofs and steep embankments. It stands up to the heat and will help keep a steady foot when fighting winter fires and the water turns to ice. The GORE CROSSTECH Moisture Barrier also repels dangerous fluids. Take a hit to the ankle thanks to the Poron® XRD® padding - the same impact protection used in motocross racing. Composite Safety Toe, Lenzi L-Protection® insole, and steel triple-rib ladder shank protect your foot from impact and the strain of working on ladders. And because you might be on your feet for hours, the dual-density removable insole molds to the shape of your foot to keep you comfortable until you're back at the station.

- GORE® CROSSTECH® triple-layer moisture barrier protects against blood-borne pathogens
- Waterproof, flame-resisting leather upper with abrasion-resisting rubber toe and heel protection.
- Removable dual-density polyurethane insole
- Lenzi L-Protection® flexible, non-metallic, puncture-resisting insole
- Steel triple-rib ladder shank
- Exclusive Vibram® ATS sole with Fire & Ice technology
- Cement construction
- Certified to meet NFPA 1971 structural & NFPA 1992 liquid splash
- CSA Z195-14 Edition-7

LEATHER STRUCTURAL BOOTS

STRUCTURAL FIRE BOOTS

QR14™ 14" Structural Leather Boot

LION-Thorogood's new QR14 bunker boots are built for comfort, durability and safety. The flex gussets allow the boot to move with you. 3M™ Scotchlite Hi-Vis piping in these waterproof, flame- and cut-resistant leather bunker boots creates a high-visibility look when exposed to direct light. The aggressive, slip-resisting outsole with 90 degree heel and ladder grips provide exceptional traction on any surface. GORE CROSSTECH triple layer moisture barrier is the toughest in the industry, delivering rugged, long-lasting protection that exceeds the requirements of the NFPA 1971 standard. The composite safety toe, Lenzi L-Protection® insole, and steel triple-rib ladder shank protects your foot from impact, puncture, and the strain of working on ladders. Extra padding in the shin and ankle protects you from ladder rungs and other impacts. Slip-resistant in all conditions and heat-resistant when the going gets hot, these all-weather boots don't quit until you do.

- GORE® CROSSTECH® triple-layer moisture barrier protects against blood-borne pathogens
- Waterproof, flame- and cut-resisting leather upper with abrasion-resisting rubber toe
- Steel Triple-Rib Ladder Shank
- Proprietary Traction Flex outsole
- Cement Construction

LEATHER STRUCTURAL BOOTS

STRUCTURAL FIRE BOOTS

U.S.A. Oblique™ 14" Leather Boot

Step up to danger with confidence in these Made in the U.S.A. leather structural bunker boots with a roomier, more comfortable oblique toe. The StedAir® PTFE waterproof, breathable membrane keeps dangerous fluids out when you wade into hazardous situations. Our exclusive Vibram® Fire & Ice Chiseled Edge sole with 90 degree lugs provides exceptional traction on any surface. It stands up to the heat and will help keep a steady foot when fighting winter fires and the water turns to ice. The Aztec lining wicks away moisture, while the removable contoured cushion insole maintains comfort no matter how long you're on your feet. A steel triple-rib ladder shank and Lenzi L-Protection® puncture-resisting insole provides a barrier between your feet and whatever you have to walk over or climb to put out the fire.

These U.S.A. made boots are built to work as hard as you do, for as long as you do.

- Full-grain, flame-/abrasion-resisting leather
- Vibram® rubber toe and heel bumper
- Removable Dual-density polyurethane footbed
- Lenzi L-Protection® flexible, non-metallic, puncture-resisting insole
- Steel Triple-rib Ladder shank
- Exclusive Vibram® Chiseled Edge Fire and Ice sole
- Goodyear Storm Welt construction
- Certified to meet NFPA 1971

STRUCTURAL FIRE BOOTS

HellFire™ Kevlar® Insulated Rubber Boot

Enjoy superior protection and comfort while fighting fires in these DuPont™ Kevlar® lined rubber insulated structural bunker boots with a flame- and heat-resisting lug outsole. A stainless steel puncture-resisting bottom plate provides a barrier between your feet and whatever you have to walk over to contain the fire. Experience added safety and comfort in the form of an oversized steel toe and a Kevlar yellow knit one piece liner five times stronger than steel. Work on ladders or crawl over debris without discomfort thanks to the cushioned shin guards. Vulcanized construction guarantees a durable, shock-absorbing fit that won't melt or degrade in extreme heat or cold. Removable superknit-covered polyurethane insole absorbs shocks so you can stand against the flames in these NFPA boots for as long as it takes to get the job done.

- Flame/heat-resisting rubber
- Removable Superknit covered, polyurethane footbed
- Steel Triple-Rib Ladder shank
- Stainless steel puncture-resisting bottom plate
- Hellfire traction lug sole
- Abrasion-resisting rubber T-toe
- Vulcanized construction
- Certified to meet NFPA 1971 structural and NFPA 1992 liquid splash

Available in whole and half sizes in 3 widths to ensure proper fit and comfort.

HellFire™ Felt Insulated Rubber Boot

Enjoy superior protection and grip while fighting fires in these flame- and heat-resisting rubber light insulated structural bunker boots with lug sole. The stainless steel, puncture-resisting bottom plate provides a barrier between your feet and whatever you have to walk over to contain the fire. Experience added safety in the form of an oversized steel toe. And we haven't forgotten about your comfort, either. The 3.5mm polyester needled felt liner with heel reinforcement cradles your foot while your body fights the flames. Work on ladders without discomfort thanks to cushioned shin guards. Vulcanized construction guarantees a durable, shock-absorbing fit that won't melt or degrade in extreme heat or cold. Removable superknit-covered polyurethane insole absorbs shocks so you can stand against the flames in these NFPA boots for as long as it takes to contain the blaze.

- Flame/heat-resisting rubber
- Waterproof
- Removable Superknit covered, polyurethane footbed
- Steel Triple-Rib Ladder shank
- Stainless steel puncture-resisting bottom plate
- HellFire traction lug sole
- Abrasion-resisting rubber T-toe
- Vulcanized construction
